

Vertical / Horizontal Air Receivers (42ft³)

Airpac Bukom provide a range of small footprint air receivers which are capable of storing 42ft³ (1189 litres) of compressed air. All receivers come equipped with calibrated safety valves and gauges.

The air receivers can be used to supply air tools for general maintenance and large volume storage requirements, typically for blowing applications on and offshore.

The units are mounted in a DNV 2.7-1 lifting frame for ease of transportation and protection on site. They can be operated vertically or horizontally depending on customer requirements. The receivers can also be stacked to create higher volume and increase outlet port availability.

Each air receiver comes fitted with 2 x 2" inlets, 4 x 2" outlets and 8 x 1" outlets. Alternative inlet and outlet connections can be fitted to suit your application. Please contact your local Airpac Bukom representative to discuss the options.

Features

- Mounted in a DNV 2.7-1 lifting frame
- Can be operated vertically or horizontally to suit customer applications
- Units can be safely stacked using ISO twistlocks

Options

- Pressure reducing valves
- Experienced personnel providing a complete operational package including: hook-up & commissioning, servicing, re-fuelling and multiple installation assistance

Technical Specifications

Vertical / Horizontal Air Receivers (42ft³)

Performance

Model	Vertical / Horizontal Air Receivers (42ft ³)
Air Storage	42ft ³ / 1189 litres
Maximum Working Pressure	11 barg /150 psig
Lifting Specification	DNV 2.7-1
Inlet / Outlet Ports	2 x 2" inlet, 4 x 2" outlet, 8 x 1" outlet
Stacking Capability	ISO twistlocks

Weights & Dimensions

	Metric	Imperial
Dimensions (vertical)	2500 x 1400 x 1600mm	98" x 55" x 63"
Dimensions (horizontal)	1600 x 1400 x 2500mm	63" x 55" x 98"
Weight	1700 Kgs	3748 lbs

N.B. Weights and dimensions are for guidance only; please contact your local Airpac Bukom office for individual asset details
