Heli-Transportable Steam Generators

Airpac Bukom can offer highly mobile steam generator and heat exchanger packages enabling operations in difficult to access locations.

Our 2.1 MMBtu heli-transportable steam generators weigh less than 5000 Kgs to enable transportation by helicopter.

The equipment has been successfully utilised on a number of projects in isolated locations, including well test projects in the jungles of South America.

Features

- Highly mobile package for difficult to access locations
- Configured to meet specific client requirements
